

Lighting

Passion & wood

Project Overview 2018

About us

Passion 4 Wood says it all, a passion for wood in all its variety. We stand for unique wooden lamps and lighting sculptures, which transform any space into a mesmerizing and inspiring environment. Founded in 2009 and based in Ostend (Belgium) our business now is present in Europa and further abroad.

Passion 4 Wood designs

Our own Woodlight.be-collection started up in 2010 by designer/owner Mike Vanbelleghem. The current Woodlight-collection includes over 30 designs, available in different types of wood/colour. This collection is made in Belgium.

Passion 4 Wood, exclusive distributor

Being the exclusive distributor of the Touchable collection (Bangkok) we are a prominent player in the European market. Our collaboration with this design company has thus evolved that Passion4Wood now takes part in the design- and production proces ensuring the designs to be fit for the European market.

Customisation

Not only can already existing lamps be adjusted to any wish, Passion 4 Wood also specialises in custom-made designs in our own workshop in Belgium.
