Description

Wooden wall lamps: Ipaki flower

The Ipaki pendant lamp can be used as a wall lamp.
As an additional feature you can add a flower stem which can also hide the powercable.
This way you do not need any electricity coming out of the wall.

Small size :

Build with 12 "feathers", the wood has been bended and glued together to get this shape.
- Dia 55 cm
- Height 25 cm (including the E27 socket)

Medium size :

Build with 2 x 9 "feathers", the wood has been bended and glued together to get this shape.
- Dia 70 cm
- Height 30 cm (including the E27 socket)

Flower stem : Height = 145 cm.
